CERTIFICATIONS

- React Nanodegree (Udacity)
- Front End Development (FCC)
- JavaScript Algorithms and Data Structures (FCC)
- Front End Libraries (FCC)
- Responsive Web Design (FCC)

PROJECTS

PuniUrl - Express, Firebase

Shorten any URL, just like TinyURL
<http://puniurl.com/>

Designed a URL shortening service. The program provides a small, 8 character replacement URL based on a queried database of URLs.

Taggen - JavaScript/Node

Generate DOM node-like scripts
<https://github.com/huntinghawk1415/Taggen>

Needed a way to generate non-opinionated XML and thought it would be interesting to create a library from scratch. Turns out it was quite the challenge but a great exercise in abstraction.

Forum App - JavaScript, React, Redux, Bootstrap

Example project from Udacity React Nanodegree
<https://github.com/huntinghawk1415/ReactND-Readable>
Provided the back-end API, created an application that allows a user to post topics and comments for others to see

PROFESSIONAL HISTORY

Sugoll Research, Inc.

Database Technician (Bethesda, MD) - 06/2015 to Present

- Assisted in adaptation of new company database software
- Program questionnaires into survey building platform, utilizing source code (HTML, CSS) for customization
- Build reports with VBA on data received from surveys
- Created HTML templates for respondent emails
